Whereas:

- (a) On 1 August 2006, the Council of the European Union adopted Regulation (EC) No 1085/2006 establishing an instrument for pre-accession assistance (hereafter: the "IPA Framework Regulation"). With effect from 1 January 2007, this instrument constitutes the single legal basis for the provision of financial assistance to candidate countries (currently Croatia, the former Yugoslav Republic of Macedonia and Turkey) and potential candidate countries (Albania, Bosnia and Herzegovina, Montenegro, and Serbia, including Kosovo according to United Nations Security Council Resolution 1244) in their efforts to enhance political, economic and institutional reforms with a view to their eventually becoming members of the European Union.
- (b) On 12 June 2007, the Commission adopted Regulation (EC) No 718/2007 implementing the IPA Framework Regulation, detailing applicable management and control provisions (hereafter: "IPA Implementing Regulation").
- (c) European Union assistance under the instrument for pre-accession assistance should continue to support the beneficiary countries in their efforts to strengthen democratic institutions and the rule of law, reform public administration, carry out economic reforms, respect human as well as minority rights, promote gender equality, support the development of civil society and advance regional cooperation as well as reconciliation and reconstruction, and contribute to sustainable development and poverty reduction.

For potential candidate countries, European Union assistance may also include some alignment with the *acquis communautaire*, as well as support for investment projects, aiming in particular at building management capacity in the areas of regional, human resources and rural development.

- (d) The Parties have concluded on 15 November 2007 a Framework Agreement setting out the general rules for cooperation and implementation of the European Union assistance under the instrument for Pre-Accession Assistance.

- (e) The Commission adopted on 28 July 2010 the National Programme for Montenegro under the IPA-Transition Assistance and Institution Building Component in 2010 (hereafter: "the programme"). This programme is to be implemented by the Commission on a centralised basis.
- (f) It is necessary for the implementation of this programme that the Parties conclude a Financing Agreement to lay down the conditions for the delivery of European Union assistance, the rules and procedures concerning disbursement related to such assistance and the terms on which the assistance will be managed.

2. PRIORITY AXES / (MEASURES) / PROJECTS

Montenegro applied for membership to the European Union in December 2008. The Council decided in April 2009 to implement the procedure laid down in Article 49 of the Treaty on European Union. Accordingly, the Commission was requested to submit to the Council its Opinion on the application, which will assess whether Montenegro complies with the Copenhagen criteria for membership (political criteria, economic criteria and the ability to assume the obligations of membership) and the conditions set in the Stabilisation and Association Process. IPA programmes accompany the integration process, and in particular in the years to come.

2.a Priority Axes

The national programmes are focused on the objectives set out in the Multi-Annual Indicative Planning Documents (MIPD). The current MIPD 2009-2011 reflects the key priorities of the European Partnership and the next steps in the Stabilisation and Association Process (SAP). It takes into account what was financed under CARDS and what is on-going and foreseen under IPA 2007, 2008 and 2009 and probable future priorities coming up in the overall European integration process (including the "Enhanced Permanent Dialogue" and sub-Committees) as well as the recommendations of the Montenegro progress report for 2009. It is also considering the National Programme for Integration (NPI) 2008-2012.

The IPA 2010 national programme for Montenegro focuses on infrastructures (with a leverage effect on EIB loans) (35%), as this helps mitigating the impacts of the financial crisis and provides employment, in addition to developing the necessary infrastructure needs, through two large projects on railways rehabilitation and Waste Water Treatment and grants for Municipalities; it also includes two new projects in the social sector, on gender equality and a large social inclusion one dealing with inclusive education, social welfare reform and child care; then a series of projects in the main *acquis*-related areas.

Due to the small size of the country and of its administration, and taking into consideration its absorption capacity, small support programmes are more efficient, therefore an amount to 10% (around 3 million) of the total envelope of the programme is foreseen. They will allow for flexible and well targeted rather small projects such as twinning-lights, technical assistance or ad-hoc supply contracts.

No project is foreseen for Civil society in 2010, as a large 2009 support to civil society has not yet been launched, and the 2007 one is just starting. The regional multi-country "civil society facility" is in place in Montenegro which will work in close coordination with an on-going smaller well targeted technical assistance.

Per priority axis, the IPA 2010 national programme is clustered as follows:

- (a) Political criteria. This includes support for local self government, as a continuation of the IPA 2008 project including grants for infrastructure; for strengthening the police; and pursues the fight against corruption through developing integrity framework in the public administration; in addition to creating the path towards gender equality.
- (b) Economic criteria; this axis includes support for infrastructure (railways and environment); for reforms in the social area for an inclusive society; for environment through forestry projects and awareness campaigns; as well as for assisting the ministry of Information society.
- (c) Ability to assume obligations of membership. This axis supports the implementation of *acquis* related activities in the areas of statistics, phytosanitary, construction norms, blood transfusion, market surveillance, as well as tax administration

(d) To participate in Community programmes, IPA facilitates the "entry ticket" for the 7th Framework programme in Research; Entrepreneurship & Innovation; Culture and Customs 2013.

(e) The last priority axis consist in support programmes, including project preparation, technical assistance, small supplies where appropriate and other support measures.

	TOTAL IPA in EUR	
<i>Axis 1. Political criteria</i>	6 700 000.00	23.40%
<i>Axis 2. Economic criteria</i>	13 250 000.00	46.27%
<i>Axis 3. Ability to assume obligations of membership</i>	5 600 000.00	19.55%
<i>Axis 4. Community programmes</i>	318 483.00	1.11%
<i>Axis 7. Support activities</i>	2 770 340.00	9.67%
Total	28 638 823 00	100%

2.b Description of projects grouped by priority axes

The total amount allocated to ME in the MIFF is EUR 29 238 823. An additional amount of EUR 600 000 has been added in order to start socio-economic activities at the border with Kosovo (CBC-type activities) instead of a CBC component II programme. The TEMPUS programme of EUR 1 200 000 is implemented under the IPA Multi-beneficiary programme, and thus does not appear in the matrix below. The total amount for this component is **EUR 28 638 823**.

The following matrix summarises the projects that make up the IPA 2010 National Programme.

2.c Overview of past and on going assistance (EU / IFI / Bilateral and national assistance) including lesson learned and donor coordination

Past and on-going assistance

Overall EU CARDS assistance to Montenegro between 1998 and 2006 amounted to some EUR 280 million. The purpose of the CARDS programme was to support: good governance, institution building and the rule of law; the development of a market economy, while investing in vital physical infrastructure and the environment; the stabilisation of democracy, social development and civil society.

The pre-accession assistance under IPA 2007, 2008 and 2009 provided an additional EUR 84 235 235 under the national programme (including what was shifted to the regional programmes) and EUR 13 064 765 under the Cross Border Cooperation (CBC) programmes.

Particular attention will be given to ensure complementarity with the Multi-Beneficiary IPA programmes, managed by ELARG Headquarters. Indeed, they support numerous sectors of common interest, such as justice, social issues, statistics, municipal infrastructures and refugees. They also include (1) the project on civil society development, included in the broader Civil Society Facility; (2) the projects of infrastructures, included in the financial crisis package and the Western Balkan Investment Framework; and (3) municipal infrastructures, included in the Municipal Window.

Lessons learned

The programming of IPA 2010 funds takes into account the lessons learned from previous CARDS as well as of Phare assistance, and of the IPA 2007, 2008 and 2009 exercises. The recent evaluation of CARDS Public Administration Reform, Civil Society, and Justice, Liberty, and Security programmes has given strategic and operational recommendations. Most of them have already been adopted in subsequent years. These are the following: (1) sector strategies should be the starting point of programming; the limited absorption capacity should be mitigated through training of trainers; conditionalities should be strictly used; functional needs assessments of institutions are needed to avoid duplication; careful planning and sequencing should be done; donor coordination should avoid contradictory advices; increase awareness on sustainability should be supported; (2) project design is to be improved; civil society should be considered as such, not only to carry out social activities; increased monitoring of project implementation should be carried out; cross-cutting issues should be mainstreamed.

Donor coordination

Formal donor coordination is taking place under the chairmanship of the Prime Minister. Donor coordination is also done through regular sectoral meetings led by line ministries. Local institution in charge of donor coordination is the Secretariat for European Integration (SEI) under the Minister for European Integration. The SEI also links donor interventions more systematically to the National Programme for Integration (NPI).

- Donor information exchange is being developed through filling in an information matrix where each donor and agency indicates in which DAC sectors they are currently involved.
- The main bilateral and multilateral donors present in Montenegro are the following. Germany, through GTZ and KfW is one of the biggest bilateral donors to Montenegro, planning to provide some EUR 31 millions (5 millions of grants and 26 millions of loans) in assistance for the country's development in 2009. The funds will be used for developing projects in the fields of water supply, energy efficiency and modernisation of communal infrastructure. Since 2000, Germany and Montenegro have already signed nine cooperation protocols worth approximately EUR 200 millions. The projects, which are financed by the German side,

include support for structural reforms, rehabilitation and development of the financial sector, development of infrastructure, entrepreneurship and tourism. USA through USAID is mainly involved in fostering the rule of law. It is also involved in decreasing discrepancy in economic development between Northern and Southern part of Montenegro. Netherlands, through SNV, is mainly involved with capacity building and rural development projects. Italy is mainly involved in social sector, sustainable tourism and environment, and projects on integrating Roma population. Turkey through TICA has implemented 50 smaller projects in the field of technical assistance. Austria through ADA is focussing on projects on sustainable social-economic and democratic development, as well as on education.

- Regarding the IFIs, EIB is focusing on environmental infrastructure and transport (railways). The World Bank is implementing a large number of projects involved in the sustainable economic growth, in rural development (through the MIDAS project), and private sectors through IFC. EBRD is mainly focused on projects in economic development and infrastructure through financial instruments.
- Among the UN agencies, UNDP is involved in social inclusion, institutional and judicial reform, economy and environment, regional environmental programme; UNHCR in establishing asylum system and finding durable solution for displaced persons; UNICEF on child protection reform and de-institutionalisation. Whereas the OSCE is implementing projects fostering democratization and protection of human rights, law enforcement, and media development, as well as assisting Parliament. The Council of Europe is focussing on public administration reform.

2.d Horizontal Issues

Each project fiche explains how cross-cutting issues shall be mainstreamed. Local actors/bodies, including civil society, are consulted to assist Montenegrin institutions/organisations in effectively mainstreaming, in line with European standards, appropriate practices. A portion of the projects' budgets may be allocated for this purpose.

Equal opportunities and non-discrimination (Gender equality)

Montenegrin Gender Equality Office performs expert and coordination tasks related to the implementation of the principle of gender equality / women's rights. Specific attention is given to ensure that women's needs and interests (including of those facing higher risks: refugees, Roma women, uneducated women, unemployed women, single-mothers, etc.) are addressed throughout projects development and outputs (laws, regulations, policies, etc.) and activities are organised so as to encourage/facilitate their participation in order to reduce the high rate of discrimination against women in Montenegro. The 2010 project on gender equality will greatly help encourage this in a sustainable way, across institutions.

Support to Minorities and Vulnerable Groups

Although Montenegro has policies in place to promote the inclusion of minorities and vulnerable groups, implementation (e.g.; in education, use of languages, public administration, access to health care, etc.) often lags behind. Activities will be organised so as to encourage/facilitate their participation, so as to reflect the diversity of Montenegrin society. The 2010 Social Inclusion project will ensure that this is closely looked at throughout any project.

Environmental protection

The Constitution envisages that the country will become an "ecological state" and requires strict environmental standards are enforced. However, recent years have seen environmental degradation which directly affects the quality of life, notably of people living in urban areas, and of minorities who are at greater risk of being exposed to environmental hazards. Protecting the

environment is also crucial to Montenegro's growing tourist industry. The special project on environment awareness will enhance the protection of the environment in Montenegro by inhabitants.

Good Governance

Good governance, particularly the fight against corruption, is an important cross cutting issue in any effective assistance programme. It is also explicitly addressed in a number of the proposed projects, and in particular in the project supporting the integrity in the public sector and the prevention of conflict of interest.

2.e Conditions

The programme includes the following conditions:

- The government formally endorses the projects described in the fiches, including the identified parallel co-financing commitments.
- The government will ensure that the beneficiary institutions have adequate financial, material and human resources in order that EU financial support is used in the most effective and sustainable manner possible.
- Beneficiary institutions will formally endorse the design and tender documents, including terms of reference.
- The government shall ensure the availability of land, free of ownership claims or disputes, for the construction of the planned works. The Government shall ensure long-term sustainability of the actions by allocating the necessary resources, including running costs and maintenance costs.
- Related to project 5 "Major rehabilitation of the main rail line Bar-Vrbnica", the Government shall reimburse disbursements in case of privatisation within project duration.
- Beneficiary institutions organise, select and appoint members (respecting gender and ethnic balance) of working groups, steering and coordination committees, and seminars as required by the project activities.

In the event that these conditions are not met, suspension or cancellation of the project or specific activities will be considered.

2.f Benchmarks

2.g Roadmap for the decentralisation of the management of EU funds without *ex ante* controls by the Commission i.e. conferral of EU funds management

Preparations towards decentralised management for IPA are ongoing. Following elections and formation of a new government in spring 2009, a new National Authorising Officer (NAO) was nominated, the other key positions, like Competent Accrediting Officer (CAO) and Programme Authorising Officer (PAO) remained unchanged. The government updated in October 2009 the "Action Plan for the conferral of management of IPA funds for the Component I and II", which envisages the submission of application for conferral of management powers for Comp. I and II by end 2010. An implementing agreement (between newly appointed NAO and PAO) has been signed in October 2009. Out of the 16 Senior Programme officers (SPOs) 14 have been designated and Operational agreements with the PAO were signed. By the end of November 2009 the two remaining operational agreements are expected to be signed. A formal gap assessment (stage 1 of the roadmap to decentralised management for IPA) for Comp I and II has been launched in November 2009.

A Strategic Coordinator (Deputy Minister for European Integration) has been designated for IPA Components III and IV and an "Overall Action Plan of the Government of Montenegro for IPA Comp III and IV" established, which outlines the main steps for elaborating the Strategic Coherence Framework (SCF) and Operational Programmes (Ops) and for the accreditation for the conferral of management.

Assistance in the process of preparing for conferral of Eu funds management for IPA Comp I and II is ongoing under a CARDS project, which is to be followed-up by three IPA projects that will support the introduction of decentralised management of EU funds for all five IPA components.

(2) Priority axis rows only. Expressed in % of the grand total of column (b). It indicates the relative weight of the priority with reference to the total IPA Community contribution of the entire FP

3.2 Principle of Co-Financing applying to the projects funded under the programme

The Community contribution, which represents **60.85%** of the total budget allocated to this programme, has been calculated in relation to the eligible expenditure, which in the case of centralised management is based on the total expenditure. Parallel co-financing will be used.

In total **11.90%** of co-financing is foreseen for institution building (IB) and **55.66%** for Investment. In view of these overall figures exceeding the minimum required, a 3.23% co-financing for axis 3 and 0% for axis 7 are acceptable. However, if parts of the axis 7 measures are to be implemented through grants, the guide for applicants of the call for proposal shall provide for a co-financing from the final beneficiary.

Individual grants agreements implementing the projects described in point 2b above will be financed in full by the Commission, in accordance with Art 253(1)(d) of the Implementing rules to the Financial Regulation.

4. IMPLEMENTATION ARRANGEMENTS

4.1 Method of implementation

The programme will be implemented on a centralised basis by the European Commission in accordance with the Financial Regulation² (FR) and the corresponding provisions of the Implementing Rules³.

One project (project 10) shall be implemented under Indirect Centralised Management, in accordance with Art 56.1 of the FR (6-pillar assessment) through a delegation agreement with Lux Development, and another one (project6) under joint management with EIB in accordance with Art 53d of the FR (4-pillar assessment) through a contribution agreement.

The implementation of the programme is delegated to the European Union Delegation in Montenegro.

4.2 General rules for procurement and grant award procedures

Procurement shall follow the provisions of Part Two, Title IV of the Financial Regulation and Part Two, Title III, Chapter 3 of its Implementing Rules as well as the rules and procedures for service, supply and works contracts financed from the general budget of the European Communities for the purposes of cooperation with third countries adopted by the Commission on 24 May 2007 (C(2007)2034).

Grant award procedures shall follow the provisions of Part One, Title VI of the Financial Regulation and Part One, Title VI of its Implementing Rules.

The Commission shall also use the procedural guidelines and standard templates and models facilitating the application of the above rules provided for in the "Practical Guide to contract procedures for EU external actions" ("Practical Guide") as published on the EuropeAid website⁴ at the date of the initiation of the procurement or grant award procedure.

In case of projects containing works, the FIDIC⁵ conditions of contracts will be followed. The supervision of the works will be ensured by the national authorities.

4.3 Implementation Principles for Twinning Projects

Twinning projects shall be set up in the form of a grant agreement, whereby the selected Member State administrations agree to provide the requested public sector expertise against the reimbursement of the expenses thus incurred.

The contract may in particular provide for the long-term secondment of an official assigned to provide full-time advice to the administration of the beneficiary country as resident twinning advisor.

The twinning grant agreement shall be established in accordance with relevant provisions of Part One, Title VI of the Financial Regulation and Part One, Title VI of its Implementing Rules.

The twinning manual is available on the Website of DG ELARG at the following address: http://ec.europa.eu/enlargement/financial_assistance/institution_building/twinning_en.htm

4.4 Environmental Impact Assessment and Nature Conservation

All investments shall be carried out in compliance with the relevant Community environmental legislation.

The procedures for environmental impact assessment, as set down in the EIA-Directive⁶, will fully apply to all investment projects and the application of the European Principles for the Environment will be ensured⁷.

Since projects 3, 5, 6, 10 and 12 are likely to affect sites of nature conservation importance, an appropriate nature conservation assessment shall be made for each project, equivalent to that provided for in Art. 6 of the Habitats Directive⁸.

5. MONITORING AND EVALUATION

5.1 Monitoring

The Commission may undertake any actions it deems necessary to monitor the programmes concerned.

5.2 Evaluation

Programmes shall be subject to *ex ante* evaluations, as well as interim and, where relevant, *ex post* evaluations in accordance with Articles 57 and 82 of the IPA Implementing Regulation⁹, with the aim of improving the quality, effectiveness and consistency of the assistance from Community funds and the strategy and implementation of the programmes.

The results of *ex ante* and interim evaluation shall be taken into account in the programming and implementation cycle. The Commission may also carry out strategic evaluations.

6. AUDIT, FINANCIAL CONTROL AND ANTI-FRAUD MEASURES

The accounts and operations of all parties involved in the implementation of this programme, as well as all contracts and agreements implementing this programme, are subject to, on the one hand, the supervision and financial control by the Commission (including the European Anti-Fraud Office), which may carry out checks at its discretion, either by itself or through an outside auditor and, on the other hand, audits by the European Court of Auditors. This includes measures such as *ex-ante* verification of tendering and contracting carried out by the Delegation in the Beneficiary Country.

In order to ensure the efficient protection of the financial interests of the Community, the Commission (including the European Anti-Fraud Office) may conduct on-the-spot checks and inspections in accordance with the procedures foreseen in Council Regulation (EC, Euratom) 2185/96¹⁰

The controls and audits described above are applicable to all contractors, subcontractors and grant beneficiaries who have received Community funds.

7. NON SUBSTANTIAL REALLOCATION OF FUNDS

The authorising officer by delegation (AOD), or the authorising officer by sub-delegation (AOSD), in line with the delegation of powers conferred upon him by the AOD, in accordance with the principles of sound financial management, may undertake non substantial reallocations of funds without an amending financing decision being necessary. In this context, cumulative reallocations not exceeding 20% of the total amount allocated for the programme, subject to a limit of EUR 4 million, shall not be considered substantial, provided that they do not affect the nature and objectives of the programme. The IPA Committee shall be informed of the above reallocation of funds.

8. LIMITED ADJUSTMENTS IN THE IMPLEMENTATION OF THE PROGRAMME

Limited adjustments in the implementation of this programme affecting elements listed under Article 90 of the Implementing Rules to the Financial Regulation, which are of an indicative nature¹¹, may be undertaken by the authorising officer by delegation (AOD), or by the authorising officer by sub-delegation (AOSD), in line with the delegation of powers conferred upon him by the AOD, in accordance with the principles of sound financial management without an amending financing decision being necessary.

¹⁰ OJ L 292; 15.11.1996; p. 2

The Commission of the European Communities, hereinafter referred to as "the Commission", acting for and on behalf of the European Community, hereinafter referred to as "the Community"

on the one part,

and

the Government of Montenegro, acting on behalf of Montenegro, hereinafter referred to as "the Beneficiary"

and together, jointly referred to as "the Contracting Parties"

Whereas

- (1) On 1 August 2006, the Council of the European Union adopted Regulation (EC) No 1085/2006 of 17 July 2006⁽¹⁾ establishing an instrument for pre-accession assistance (hereinafter referred to as "IPA Framework Regulation"). With effect from the 1 January 2007, this new instrument constitutes the single legal basis for the provision of financial assistance to candidate countries and potential candidate countries in their efforts to enhance political, economic and institutional reforms with a view to become members of the European Union;
- (2) On 12 June 2007, the Commission has adopted the regulation implementing the IPA Framework Regulation, detailing applicable management and control provisions;
- (3) The new instrument for pre-accession assistance (IPA) replaces the five previously existing pre-accession instruments: Regulation (EEC) No 3906/1989 on economic aid to certain countries of Central and Eastern Europe, Regulation (EC) No 1267/1999 on the establishment of an instrument for structural policies for pre-accession, Regulation (EC) No 1268/1999 on the support for pre-accession measures for agriculture and rural development, Regulation (EC) No 2666/2000 on assistance for Albania, Bosnia and Herzegovina, Croatia, the Federal Republic of Yugoslavia and the former Yugoslav Republic of Macedonia repealing Regulation (EC) No 1628/96 and amending Regulations (EEC) No 3906/89 and (EEC) No 1360/90 and Decisions 97/256/EC and 1999/311/EC, and Regulation (EC) No 2500/2001 on the financial assistance to Turkey;
- (4) The Beneficiary is eligible under IPA as provided for in the IPA Framework Regulation and in Commission Regulation (EC) No 718/2007 of 12 June 2007⁽²⁾ implementing the IPA Framework Regulation (hereinafter referred to as "IPA Implementing Regulation");

¹ OJ L 210, 31 July 2006, p. 82

² OJ L 170, 29 June 2007, p. 1

- (5) The Beneficiary currently figures in Annex II of the IPA Framework Regulation, and should therefore have access to the Transition Assistance and Institution Building Component and the Cross-Border Co-operation Component established under IPA and, once the Beneficiary has obtained the status of a candidate country and therefore figures in Annex I of the said Regulation, access to the other 3 components will in principle be opened to the Beneficiary;
- (6) It is therefore necessary to set out the rules for co-operation concerning EC financial assistance with the Beneficiary under IPA;

HAVE AGREED AS FOLLOWS:

SECTION I GENERAL PROVISIONS

Article 1 Interpretation

- (1) Subject to any express provision to the contrary in this Framework Agreement, the terms used in this Agreement shall bear the same meaning as attributed to them in the IPA Framework Regulation and the IPA Implementing Regulation.

- (3) Any references to Council or Commission Regulations are made to the version of those regulations as indicated. If required, modifications of these regulations shall be transposed into this Framework Agreement by means of amendments.
- (4) Headings in this Agreement have no legal significance and do not affect its interpretation.

Article 2 Partial invalidity and unintentional gaps

If a provision of this Agreement is or becomes invalid or if this Agreement contains unintentional gaps, this will not affect the validity of the other provisions of this Agreement. The Contracting Parties will replace any invalid provision by a valid provision which comes as close as possible to the purpose of and intent of the invalid provision. The Contracting Parties will fill any unintentional gap by a provision which best suits the purpose and intent of this Agreement in compliance with the IPA Framework Regulation and the IPA Implementing Regulation.

Article 3 Purpose

- (1) In order to promote co-operation between the Contracting Parties and to assist the Beneficiary in its progressive alignment with the standards and policies of the European Union, including, where appropriate the *acquis communautaire*, with a view to membership, the Contracting Parties agree to implement activities in the

various fields as specified in the two regulations mentioned above and as applicable to the Beneficiary.

- (2) The assistance activities shall be financed and implemented within the legal, administrative and technical framework laid down in this Agreement and as further detailed in Sectoral Agreements and/or Financing Agreements, if any.
- (3) The Beneficiary takes all necessary steps in order to ensure the proper execution of all assistance activities and to facilitate the implementation of the related programmes.

- (3) All operations receiving assistance under IPA shall in principle require co-financing by the Beneficiary and the Community, unless otherwise agreed upon in a Sectoral Agreement or Financing Agreement.
- (4) Where the execution of activities depends on financial commitments from the Beneficiary's own resources or from other sources of funds, the funding of the Community shall become available at such time as the financial commitments of the Beneficiary and/or the other sources of funds themselves become available.
- (5) The provision of Community financing under IPA shall be subject to the fulfilment by the Beneficiary's obligations under this Framework Agreement and under Sectoral Agreements and Financing Agreements, if any.

Article 5 Implementation methods

- (1) For the implementation of assistance under IPA in Montenegro, decentralised management, whereby the Commission confers the management of certain actions on the Beneficiary, while retaining overall final responsibility for general budget execution in accordance with Article 53c of the Financial Regulation and the relevant provisions of the EC Treaties, shall apply as a rule. Decentralised management shall cover at least tendering, contracting and payments by the national administration of the Beneficiary. Operations shall be implemented in accordance with the provisions laid down in Article 53c of the Financial Regulation and the ones referred to in this article.
- (2) However, the Contracting Parties may agree to make use of
 - a) centralised management as defined in Article 53a of the Financial Regulation under the Transition Assistance and Institution Building Component, in particular for regional and horizontal programmes, and under the Cross-Border Co-operation Component. It may also be used for technical assistance under any of the IPA components. Operations shall be implemented in accordance with the provisions laid down in Articles 53 point (a), 53a and 54 to 57 of the Financial Regulation.
 - b) joint management as defined in Article 53d of the Financial Regulation for the Transition Assistance and Institution Building Component, in particular for regional and horizontal programmes, and for programmes involving international organisations. The following particular provision shall be taken into account in the implementation of cross-border programmes with Member States.

Where one or more Member States of the European Union and the Beneficiary participating in a cross-border programme are not yet ready for implementation of the whole programme under shared management, the part of the programme concerning the Member State(s) shall be implemented in accordance with Title II (Cross-Border Co-operation Component), Chapter III, Section 2 of the IPA Implementing Regulation (Articles 101 to 138) and the part of the programme concerning the Beneficiary shall be implemented in accordance with Title II, Chapter III, Section 3 of the IPA Implementing Regulation. (Articles 139 to 146 IPA Implementing Regulation, with the exception of Article 142. The provisions concerning the joint monitoring committee of Article 110 shall apply).

- (3) If required by the related Financing Decision, the Commission and the Beneficiary shall conclude a Financing Agreement in accordance with Article 8 of the IPA Implementing Regulation on multi-annual or annual programmes. - (3) The Beneficiary shall ensure that appropriate segregation of duties applies to the bodies and authorities mentioned under paragraph 1 and 2 above in accordance with Article 56 of the Financial Regulation. Duties are segregated when different tasks related to a transaction are allocated to different staff, thereby helping to ensure that each separate task has been properly undertaken.

Article 7 Establishment and designation of structures and authorities for centralised or joint management

- (1) In the event of centralised or joint management the national IPA co-ordinator shall act as the representative of the Beneficiary vis-à-vis the Commission. The Beneficiary shall, in particular, provide those persons with the authority to establish, through formal working arrangements between them and the bodies concerned:

- a) an appropriate system for the exchange of information, including the power to require information and a right of access to documents and staff on the spot, if necessary;
- b) the standards to be met;
- c) the procedures to be followed.

This accreditation shall be supported by an audit opinion drawn up by an external auditor functionally independent from all actors in the management and control system. The audit opinion shall be based on examinations conducted according to internationally accepted auditing standards.

- (2) The competent accrediting officer shall notify the Commission of the accreditation of the national authorising officer, not later than the notification of the accreditation of the first operating structure. The competent accrediting officer shall provide all relevant supporting information required by the Commission.
- (3) The competent accrediting officer shall immediately inform the Commission of any changes concerning the national authorising officer or the national fund. Where a change affects the national authorising officer or the national fund in relation to the applicable requirements as set out in Article 11 of the IPA Implementing Regulation, the competent accrediting officer shall send to the Commission an assessment of the consequences of such a change on the validity of the accreditation. - (2) Before the conferral of management powers, the Commission shall review the accreditations of the national authorising officer and the operating structures as laid down in Articles 10 and 11 above and examine the procedures and structures of any of the bodies or authorities concerned in Montenegro. This may include on-the-spot verifications by the services of the Commissions or subcontracted to an audit firm.
- (3) The Commission may, in its decision to confer management powers, set further conditions, with a view to ensuring that the requirements referred to in Article 11 of the IPA Implementing Regulation are met. The timing for attainment of this objective may vary depending on the IPA Component concerned.
- (2) Before dispensing with the *ex-ante* controls laid down in the Commission Decision on conferral of management, the Commission shall satisfy itself of the effective functioning of the management and control system concerned in accordance with the relevant Community and national rules. In particular, the Commission shall monitor the implementation, by the Beneficiary, of the roadmap included in the Financing Agreement, which may refer to a phased waiver of different types of ex-ante controls. Article 24 Publicity and visibility

- (1) In the case of centralised and joint management, information on programmes and operations shall be provided by the Commission with the assistance of the national IPA co-ordinator as appropriate. In the case of decentralised management and in all cases for programmes or part of programmes under the cross-border co-operation component not implemented through shared management, the Beneficiary, in particular the national IPA co-ordinator, shall provide information on and publicise programmes and operations. In the case of shared management, the Member States and the Beneficiary shall provide information on and publicise programmes and operations. The information shall be addressed to the citizens and beneficiaries, with the aim of highlighting the role of the Community and ensuring transparency.
- (2) In the case of decentralised management, the operating structures shall be responsible for organising the publication of the list of the final beneficiaries, the names of the operations and the amount of Community funding allocated to the operations by means of the award of grants in the following way:

If such internet publication is impossible, the information shall be published by any other appropriate means, including the national official journal.
 - b) Publication shall take place during the first half of the year following the closure of the budget year in respect of which the funds were attributed to the Beneficiary.
 - c) The Beneficiary shall communicate to the Commission the address of the place of publication. If the information is published otherwise, the Beneficiary shall give the Commission full details of the means used.
 - d) The operating structures shall ensure that the final beneficiary is informed that acceptance of funding is also an acceptance of their inclusion in this list of beneficiaries published. Any personal data included in this list shall nevertheless be processed in accordance with the requirements of Regulation (EC) No 45/2001 of the European Parliament and the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data ⁽⁵⁾, and with due observance of the requirements of security.
- (3) In the case of decentralised management, the relevant bodies shall prepare a contract award notice, once the contract has been signed, and send it to the Commission for publication. The contract award notice may also be published by the beneficiary in the appropriate national publications.
- (4) The Commission and the relevant national, regional or local authorities of the Beneficiary shall agree on a coherent set of activities to make available, and publicise, in Montenegro information about assistance under IPA. Article 25 Granting of facilities for the implementation of programmes and execution of contracts

- (1) In order to ensure the effective implementation of programmes under IPA, the Beneficiary shall take all necessary measures to ensure:
- a) that, in the case of service, supplies or works tender procedures, natural or legal persons eligible to participate in tender procedures pursuant to Article 23 above shall be entitled to temporary installation and residence where the importance of the contract so warrants. This right shall be acquired only after the invitation to tender has been launched and shall be enjoyed by the technical staff needed to carry out studies and other preparatory measures to the drawing up of tenders. This right shall expire one month after the decision of contract award;
 - b) that personnel taking part in Community financed activities and members of their immediate family are accorded no less favourable benefits, privileges and exemptions than those usually accorded to other international staff employed in Montenegro, under any other bilateral or multilateral agreement or arrangements for assistance and technical co-operation;
 - c) that personnel taking part in Community financed activities and members of their immediate family are allowed to enter Montenegro, to establish themselves in Montenegro, to work there and to leave Montenegro, as the nature of the underlying contract so justifies;
 - d) the granting of all permits necessary for the importation of goods, above all professional equipment, required for the execution of the underlying contract, subject to existing laws, rules and regulations of the Beneficiary;
 - e) that imports carried out under IPA will be exempted from customs duties, import duties and other fiscal charges;
 - f) the granting of all permits necessary for the re-export of the above goods, once the underlying contract has been fully executed;
 - g) the granting of authorisations for the import or acquisition of the foreign currency necessary for the implementation of the underlying contract and the application of national exchange control regulations in a non-discriminatory manner to contractors, regardless of their nationality or place of establishment;
 - h) the granting of all permits necessary to repatriate funds received in respect of the activity financed under IPA, in accordance with the foreign exchange control regulations in force in Montenegro.

Article 26 Rules on taxes, customs duties and other fiscal charges

(1) Save where otherwise provided for in a Sectoral Agreement or a Financing Agreement, taxes, customs and import duties or other charges having equivalent effect are not eligible under IPA.

(2) The following detailed provisions shall apply:

a) Customs duties, import duties, taxes or fiscal charges having equivalent effect in the case of the import of goods under a Community financed contract are not eligible under IPA. The imports concerned shall be released from the point of entry into Montenegro for delivery to the contractor, as required by the provisions of the underlying contract and for immediate use as required for the normal implementation of the contract, without regard to any delays or disputes over the settlement of the above mentioned duties, taxes or charges;

b) Community financed contracts for services, supplies or works carried out by contractors registered in Montenegro or by external contractors shall not be subject in Montenegro to value added tax, documentary stamp or registration duties or fiscal charges having equivalent effect, whether such charges exist or are to be instituted. EC contractors shall be exempted from VAT for services rendered, goods supplied and/or works executed by them under EC contracts with the right of the contractors to offset or deduct input VAT paid in connection with the services rendered, the goods supplied and/or the works executed against any VAT collected by them for any of their other transactions. Should the EC contractors not be able to make use of this possibility, they shall be entitled to obtain VAT refund directly from the tax authorities upon submission of a written request accompanied by the necessary documentation required under the national/local law for refund and by a certified copy of the underlying EC contract.

For the purposes of this Framework Agreement, the term "EC contractor" shall be construed as natural and legal persons, rendering services and/or supplying goods and/or executing works and/or executing a grant under an EC contract. The term "EC contractor" shall also cover pre-accession advisors, also known as resident twinning advisors, and experts included in a twinning covenant or contract. The term "EC contract" means any legally binding document through which an activity is financed under IPA and which is signed by the EC or the Beneficiary.

At least the same procedural privileges shall apply to such contractors as applicable to contractors under any other bilateral or multilateral agreement or arrangements for assistance and technical co-operation.

c) Profit and/or income arising from EC contracts shall be taxable in Montenegro in accordance with the national/local tax system. However, natural and legal persons, including expatriate staff, from the Member States of the European Union or other countries eligible under IPA, executing Community financed contracts shall be exempted from those taxes in Montenegro.

d) Personal and household effects imported for personal use by natural persons (and members of their immediate families), other than those recruited locally, engaged

in carrying out tasks defined in technical co-operation contracts, shall be exempted from customs duties, import duties, taxes and other fiscal charges having equivalent effect, the said personal and household effects being re-exported or disposed of in the state, in accordance with the regulations in force in Montenegro after termination of the contract.

Article 27 Supervision, control and audit by the Commission and the European Court of Auditors

- (1) All Financing Agreements as well as all resulting programmes and subsequent contracts shall be subject to supervision and financial control by the Commission including the European Anti-Fraud Office (OLAF) and audits by the European Court of Auditors. This includes the right of the Delegation of the Commission in Montenegro to carry out measures such as ex-ante verification of tendering and contracting carried out by the related operating structures, as long as ex-ante control has not been waived in accordance with Article 16 above. The duly authorised agents or representatives of the Commission and of OLAF shall have the right to carry out any technical and financial verification that the Commission or OLAF consider necessary to follow the implementation of a programme including visits of sites and premises at which Community financed activities are implemented. The Commission shall give the national authorities concerned advance notice of such missions.
- (2) The Beneficiary shall supply all requested information and documents including any computerised data and take all suitable measures to facilitate the work of the persons instructed to carry out audits or inspections.
- (3) The Beneficiary shall maintain records and accounts adequate to identify the services, supplies, works and grants financed under the related Financing Agreement in accordance with sound accounting procedures. The Beneficiary shall also ensure that the agents or representatives of the Commission including OLAF have the right to inspect all relevant documentation and accounts pertaining to items financed under the related Financing Agreement and assist the European Court of Auditors to carry out audits relating to the use of Community funds.
- (4) In order to ensure the efficient protection of the financial interests of the Community, the Commission including OLAF may also conduct documentary and on-the-spot checks and inspections in accordance with the procedural provisions of Council Regulation (EC, Euratom) No 2185/1996 of 11 November 1996⁶. These checks and inspections shall be prepared and conducted in close collaboration with the competent authorities designated by the Beneficiary, which shall be notified in good time of the object, purpose and legal basis of the checks and inspections, so that they can provide all the requisite help. The Beneficiary shall identify a service which will assist at OLAF's request in conducting investigations in accordance with Council Regulation (EC, Euratom) No 2185/1996. If the Beneficiary wishes, the on-the-spot checks and inspections may be carried out jointly with them. Where the participants in Community financed activities resist an on-the-spot check or inspection, the Beneficiary, acting in accordance with national rules, shall give Commission/OLAF

⁶ OJ L 292, 15 November 1996, p. 2

inspectors such assistance as they need to allow them to discharge their duty in carrying out an on-the-spot check or inspection.

The Commission/OLAF shall report as soon as possible to the Beneficiary any fact or suspicion relating to an irregularity which has come to its notice in the course of the on-the-spot check or inspection. In any event, the Commission/OLAF shall be required to inform the above-mentioned authority of the result of such checks and inspections.

- (5) The controls and audits described above are applicable to all contractors and sub-contractors who have received Community funds including all related information to be found in the documents of the national fund of the Beneficiary concerning the national contribution.
- (6) Without prejudice to the responsibilities of the Commission and the European Court of Auditors, the accounts and operations of the National Fund and, where applicable, operating structures may be checked at the discretion of the Commission by the Commission itself or by an external auditor assigned by the Commission.

Article 28 Prevention of irregularity and fraud, measures against corruption

- (1) The Beneficiary shall ensure investigation and effective treatment of suspected cases of fraud and irregularities and shall ensure the functioning of a control and reporting mechanism equivalent to that foreseen in the Commission Regulation (EC) No 1828/2006 of 8 December 2006 ⁽⁷⁾. In the case of suspected fraud or irregularity, the Commission shall be informed without delay.
- (2) Furthermore, the Beneficiary shall take any appropriate measure to prevent and counter any active or passive corruption practices at any stage of the procurement procedure or grant award procedure or during the implementation of corresponding contracts.
- (3) The Beneficiary, including the personnel responsible for the implementation tasks of the Community financed activities, undertakes to take whatever precautions are necessary to avoid any risk of conflict of interests and shall inform the Commission immediately of any such conflict of interest or any situation likely to give rise to any such conflict.
- (4) The following definitions shall apply:
 - a) *Irregularity* shall mean any infringement of a provision of applicable rules and contracts resulting from an act or an omission by an economic operator which has, or would have, the effect of prejudicing the general budget of the European Union by charging an unjustified item of expenditure to the general budget.
 - b) *Fraud* shall mean any intentional act or omission relating to: the use or presentation of false, incorrect or incomplete statements or documents, which has as its effect the misappropriation or wrongful retention of funds from the general budget of the European Communities or budgets managed by, or on behalf of, the European Communities; non disclosure of information in violation of a specific

⁷ OJ L 371, 27 December 2006, p. 4

obligation with the same effect; the misapplication of such funds for purposes other than those for which they are originally granted.

- c) *Active corruption* is defined as the deliberate action of whosoever promises or gives, directly or through an intermediary, an advantage of any kind whatsoever to an official for himself or for a third party for him to act or to refrain from acting in accordance with his duty or in the exercise of his functions in breach of his official duties in a way which damages or is likely to damage the financial interests of the European Communities.
- d) *Passive corruption* is defined as the deliberate action of an official, who, directly or through an intermediary, requests or receives advantages of any kind whatsoever, for himself or a third party, or accepts a promise of such advantage, to act or to refrain from acting in accordance with his duty or in the exercise of his functions in breach of his official duties in a way which damages or is likely to damage the financial interests of the European Communities.

Article 29 Recovery of funds in case of irregularity or fraud

- (1) Any proven case of irregularity or fraud discovered at any time during the implementation of assistance under IPA or as the result of an audit will lead to the recovery of the funds by the Commission from the Beneficiary.
- (2) The national authorising officer shall recover the Community contribution paid to the Beneficiary from those who committed the irregularity, fraud or corruption or benefited from it, in accordance with national recovery procedures. The fact that the national authorising officer does not succeed in recovering all or part of the funds shall not prevent the Commission from recovering the funds from the Beneficiary.

Article 30 Financial corrections

- (1) In the case of decentralised management, in order to ensure that the funds are used in accordance with the applicable rules, the Commission shall apply clearance-of-accounts procedures or financial correction mechanisms in accordance with Article 53b(4) and 53c(2) of the Financial Regulation and as detailed in Sectoral Agreements or Financing Agreements.
- (2) A financial correction may arise following either:
 - identification of a specific irregularity, including fraud;
 - identification of a weakness or deficiency in the management and control systems of the Beneficiary;
- (3) If the Commission finds that expenditure under the programmes covered by IPA has been incurred in a way that has infringed applicable rules, it shall decide what amounts are to be excluded from Community financing.
- (4) The calculation and establishment of any such corrections, as well as the related recoveries, shall be made by the Commission, following the criteria and procedures provided for in Articles 32, 33 and 34 below. Provisions on financial corrections which have been set down in Sectoral Agreements or Financing Agreements shall apply in addition to this Framework Agreement

Article 31 Financial adjustments

In the case of decentralised management the national authorising officer, who bears in the first instance the responsibility for investigating irregularities, shall make the financial adjustments where irregularities or negligence are detected in operations or operational programmes, by cancelling all or part of the Community contribution to the operations or the operational programmes concerned. The national authorising officer shall take into account the nature and gravity of the irregularities and the financial loss to the Community contribution.

Article 32 Criteria for financial corrections

- (1) The Commission may make financial corrections, by cancelling all or part of the Community contribution to a programme, in the situations referred to in Article 30(2) above.
- (2) Where individual cases of irregularity are identified, the Commission shall take into account the systemic nature of the irregularity to determine whether flat-rate corrections, punctual corrections or corrections based on an extrapolation of the findings should be applied. For the Rural Development Component, criteria for financial corrections are set out in Financing Agreements or Sectoral Agreements.
- (3) When deciding the amount of a correction, the Commission shall take into account the nature and gravity of the irregularity and/or the extent and financial implications of the weaknesses or the deficiencies found in the management and control system in the programme concerned.

Article 33 Procedure for financial corrections

- (1) Before taking a decision on a financial correction, the Commission shall inform the national authorising officer of its provisional conclusions and request his comments within two months.

Where the Commission proposes a financial correction on the basis of extrapolation or at a flat rate, the Beneficiary shall be given the opportunity to establish the actual extent of the irregularity, through an examination of the documentation concerned. In agreement with the Commission, the Beneficiary may limit the scope of this examination to an appropriate proportion or sample of the documentation concerned. Except in duly justified cases, the time allowed for this examination shall not exceed a period of two months after the two-month period referred to in the first subparagraph.

- (2) Any delay in repayment shall give rise to interest on account of late payment, starting on the due date and ending on the date of actual payment. The rate of such interest shall be one-and-a-half percentage points above the rate applied by the European Central Bank in its main refinancing operations on the first working day of the month in which the due date falls.

Article 35 Re-use of Community contribution

- (1) The resources from the Community contribution cancelled following financial corrections pursuant to Article 30 shall be paid to the Community Budget, including interest thereon.
- (2) The contribution cancelled or recovered in accordance with Article 31 above may not be re-used for the operation or operations that were the subject of the recovery or the adjustment, nor, where the recovery or adjustment is made for a systemic irregularity, for existing operations within the whole or part of the priority axis in which the systemic irregularity occurred.

Article 36 Monitoring in the case of decentralised management, monitoring committees

 - (a) The IPA monitoring committee may make proposals to the Commission, the national IPA co-ordinator and the national authorising officer for any actions to ensure the coherence and co-ordination between the programmes and operations implemented under the different components, as well as for any cross-component corrective measures needed to ensure the achievement of the global objectives of the assistance provided, and to enhance its overall efficiency. It may also make proposals to the relevant sectoral monitoring committee(s) for

decisions on any corrective measures to ensure the achievements of programme objectives and enhance the efficiency of assistance provided under the programmes or IPA component(s) concerned;

- (b) The IPA monitoring committee shall adopt its internal rules of procedure in compliance with a monitoring committee mandate established by the Commission, and within the institutional, legal and financial framework of the Beneficiary;
- (c) Unless otherwise provided in the monitoring committee mandate set out by the Commission, the following provisions shall apply:
 - aa) The IPA monitoring committee shall include among its members representatives of the Commission, the national IPA co-ordinator, the national authorising officer, representatives of the operating structures, and the strategic co-ordinator.
 - bb) A representative of the Commission and the national IPA co-ordinator shall co-chair the IPA monitoring committee meetings;

The sectoral annual reports on implementation shall cover the financial year. The sectoral final reports on implementation shall cover the whole period of implementation and may include the last sectoral annual report.

- (2) The reports referred to in paragraph 1 shall be sent to the national IPA co-ordinator, the national authorising officer and to the Commission, after examination by the sectoral monitoring committees.
- (3) On the basis of the reports referred to in paragraph 1, the national IPA co-ordinator shall send to the Commission and the national authorising officer, after examination by the IPA monitoring committee, annual and final reports on the implementation of assistance under the IPA Regulation.
- (4) The annual report on implementation referred to in paragraph 3, which shall be sent by 31 August each year and for the first time in 2008, shall synthesise the different sectoral annual reports issued under the different components and shall include information about:

 - b) financial implementation of Community assistance.
- (5) The final report on the implementation as referred to in paragraph 3 shall cover the whole period of implementation and may include the latest annual report mentioned in paragraph 4.

Article 39 Closure of programmes under decentralised management

- (1) After an application for final payment has been received by the Commission from the Beneficiary, a programme is considered closed as soon as one of the following occurs:
 - payment of the final balance due by the Commission;
 - issuance of a recovery order by the Commission;

to the Framework Agreement between the Commission and the Government of Montenegro¹

Annual Audit Opinion

of the Audit Authority of Montenegro² on the management and control systems

addressed to

- the European Commission, Directorate-General
- the Competent Accrediting Officer (CAO) of Montenegro and
- [copy to]³ the National Authorising Officer (NAO) of Montenegro

Introduction:

I, (*name, first name, official title or function*), Head of the Audit Authority of Montenegro, (*name of Audit Authority designated*), have examined the functioning of the management and control systems for the operations under component [1 to 5] of the Instrument for pre-accession (IPA) during the previous 12-month period ended on (*date*), as presented in the description sent to the Commission on (*date*) at the moment of submitting the application for conferral of management (taking into account of changes notified to the Commission in previous years on (*date*) together with the changes identified in the annual audit activity report accompanying this opinion).

The objective of this examination is to issue an opinion on the conformity of the management and control systems with the Framework Agreement and/or any other agreements between the Commission and Montenegro in the framework of IPA and as to whether these management and control systems - designed to contribute to the production of reliable [statements of expenditure] [accounts and statements of expenditure]⁴ presented to the Commission and therefore to help to ensure, inter alia, the legality and regularity of the transactions underlying those statements - were operated effectively.

Respective responsibilities of the NAO and the auditors:

The NAO is responsible, inter alia, for the preparation and fair presentation of the Statement of Assurance in accordance with Article 25 of the IPA Implementing Regulation (IPA IR). This responsibility includes the expression of a representation as regards the truth, completeness and accuracy of the expenditure declared [and the accounts submitted]³ to the Commission, as well as whether the effective functioning of the management and control systems under IPA provides reasonable assurance as to the legality and regularity of transactions underlying the Statement.

¹ per component

² pursuant to Article 29(2)(b) of the IPA Implementing Regulation

³ option to be selected

⁴ option to be selected depending on the component

The NAO should base his/her assessment upon all information at his/her disposal. This includes the work of the internal audit service.

My responsibility in this report – in accordance with Article 29(2)(b) 2nd indent of the IPA IR - is to **express an opinion** on the effective functioning of the management and control systems established for the operations under the IPA component [1 to 5] during the previous 12-month period ended on (*date*) in all material respects.

Our audits are organised with this objective in mind (together with the objective of also providing opinions on expenditure declared [and annual accounts of Component 5]⁵ and final statements of claim). We organise an overall audit work plan to fulfil all our responsibilities under Article 29 IPA IR. We did not plan and perform our audits with a view to be able to express an overall opinion on the reliability of the NAO's Statement of Assurance as such. However, we do state our conclusions whether the results of the audit work that we have carried out give rise to any significant doubts in respect of the Statement of Assurance. In particular we have assessed whether our audit findings are consistent with the presence or absence of reservations by the NAO to the Statement of Assurance. We conducted our audits in accordance with international auditing standards. Those standards require, inter alia, that we comply with ethical requirements, and that we plan and perform the audits to obtain reasonable assurance on which to base our opinion.

I believe that the work carried out provides a sound basis for our opinion.

Scope of the examination:

The audit assignments were carried out in accordance with the annual audit work plan in respect of this component during the 12-month period in question and reported in the annual audit activity report covering the period until ... (*date*).

Our system-based audit included an examination, on a test basis, of the design and operation of the management and control systems put in place by the beneficiary to effectively manage those risks which threaten the production of reliable [statements of expenditure] [accounts and statements of expenditure]³ presented to the Commission.

Indicate any limitations on the scope of the examination:

- Explain any limitations

Auditors' Opinion:

[Option 1 - Unqualified opinion

Based on the examination referred to above, it is my opinion that for the period 1 October 20xx until 30 September 20xx+1) the management and control systems established for the component [1 to 5] to contribute to the production of reliable [statements of expenditure] [accounts and statements of expenditure]³ presented to the Commission and, therefore, to help to ensure, inter alia, the legality and regularity of the transactions underlying those statements, functioned effectively and, concerning its design and operation, complied in all material respects with all applicable requirements of the IPA Framework Agreement and/or any other agreements between the Commission and Montenegro in the framework of IPA. Without expressing an opinion on the overall reliability of the Statement of Assurance I conclude that the Statement of Assurance issued by the NAO did not contain any representations that would

⁵ option to be selected for component 5

be materially inconsistent with our audit findings and which would therefore provide any reason to doubt that the Statement of Assurance has been correctly drawn up in accordance with the applicable legislation.

The audits were conducted between DD/MM/20YY and DD/MM/20YY. A report on my findings is delivered at the same date as the date of this opinion.

[Option 2 - Qualified opinion⁶

Based on the examination referred to above, it is my opinion that for the period 1 October 20xx until 30 September 20xx+1) the management and control systems established for the component [1 to 5] to contribute to the production of reliable [statements of expenditure] [accounts and statements of expenditure]³ presented to the Commission and, therefore, to help to ensure, inter alia, the legality and regularity of the transactions underlying those statements, functioned effectively and, concerning its design and operation, complied in all material respects with all applicable requirements of the IPA Framework Agreement and/or any other agreements between the Commission and Montenegro in the framework of IPA except in the following respects:

- State and explain the qualifications (whether due to disagreement with the NAO or scope limitation); in particular, indicate the bodies concerned
- Indicate whether the qualifications are of a recurring / systemic nature or one-off

As a consequence, [Montenegro] [the ... authority] [any other actor(s)] has failed to comply with the requirements of the IPA Framework Agreement and/or any other agreements between the Commission and Montenegro in the framework of IPA.

I estimate the impact of the qualification(s) to be ... EUR [%] of the total expenditure declared, corresponding to ... EUR [%] of the public contribution. The Community contribution affected is thus..... Without expressing an opinion on the overall reliability of the Statement of Assurance as a whole, I conclude that the Statement of Assurance issued by the NAO contained representation(s) that is / are materially inconsistent with our audit findings and which therefore provide(s) some reason to doubt that the Statement of Assurance has been correctly drawn up in accordance with the applicable legislation in this respect. [Option 3 - Adverse opinion

Based on the examination referred to above, it is my opinion that for the period 1 October 20xx until 30 September 20xx+1) the management and control systems established for the IPA component [1 to 5] to contribute to the production of reliable [statements of expenditure] [accounts and statements of expenditure]³ presented to the Commission and, therefore, to help to ensure, inter alia, the legality and regularity of the transactions underlying those statements, did **not** function effectively and, concerning its design and operation, **failed** to comply, in significant respects, with applicable requirements of the IPA Framework Agreement and/or any other agreements between the Commission and Montenegro in the framework of IPA.

This adverse opinion is based on the following observation(s):

- Describe the circumstances giving rise to the reservations – together with its significant compliance implications with Community rules - and name in particular the bodies affected, if applicable.

Because of the effects of the matters described in the preceding paragraph [Montenegro] [the ... authority] [any other actor(s)] has **failed** to comply with the requirements of the IPA Framework Agreement and/or any other agreements between the Commission and Montenegro in the framework of IPA.

to the Framework Agreement between the Commission and the
Government of Montenegro¹

Audit Opinion

of the Audit Authority of Montenegro²

on the final statement of expenditure of the [programme with reference: ...]

[on the accounts and statement of expenditure of component 5]³

[part ... of the programme with reference: ...]

[as supported by the final Audit Activity Report]⁴

addressed to

- the European Commission, Directorate-General
- the Competent Accrediting Officer (CAO) of Montenegro

1. Introduction

I, (*name, first name, official title or function*), Head of the Audit Authority of Montenegro, (name of Audit Authority designated), have examined the results of the audit work carried out on the programme (indicate programme - title, component, period, reference (CCI) number) by or under the responsibility of the Audit Authority in accordance with the audit work plan [and have carried out additional work as I judged necessary].

2. Respective responsibilities of the National Authorising Officer (NAO) and the auditors

In accordance with Article 25 of the IPA Implementing Regulation (IPA IR) the preparation and fair presentation of the expenditure statements submitted to the Commission, as well as ensuring the legality and regularity of the transactions underlying those statements, rest with the NAO.

[This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of annual accounts that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances]³.

My responsibility in this report – in accordance with Article 29(2)(b) 3rd indent of the IPA IR - is to express an opinion [on the reliability of the final statement of expenditure] [on the reliability of statement of expenditure and annual accounts]³ [and the validity of the final payment application] submitted by the NAO. I conducted the audits in accordance with international auditing standards.

¹ per component

² pursuant to Article 29(2)(b) of the IPA Implementing Regulation

³ option to be selected for component 5

⁴ where appropriate, in any case not applicable to component 5

Those standards require that I plan and perform the audits in order to obtain reasonable assurance about whether the statement of expenditure [and the annual accounts]³ [and the payment application for the final balance of the Community contribution to the programme] is [are] free of material misstatement [and the effectiveness of internal control procedures]³.

We organise an overall audit work plan to fulfil all our responsibilities under Article 29 of the IPA IR. The audits included [examination, on a test basis, of evidence supporting the amounts and disclosures in the final statement of expenditure and the payment application for the final balance of the Community contribution to the programme] [examination, on a test basis, of evidence supporting the information in the annual accounts, an examination of procedures and of an appropriate sample of transactions to obtain audit evidence about the amounts and disclosures in the statement of expenditure and the annual accounts]³. [The audits covered compliance of payments with Community rules only as regards the capability of the accredited administrative structures to ensure that such compliance has been checked before payment is made]⁵.

I believe that my audits provide a reasonable basis for my opinion.

3. Scope of the examination

I have conducted my examination in accordance with Article 29(2)(b) IPA IR.

<The scope of our examination was not designed to form an opinion on the legality and regularity of the transactions underlying the final statement of expenditure submitted to the Commission.>⁶ <There were no limitations on the scope of the examination.>⁵

The scope was further limited by the following factors:

- (a) ...
- (b) ...
- (c) ..., etc.

(Indicate any limitation on the scope of the examination, for example any systemic problems, weaknesses in the management and control system, lack of supporting documentation, cases under legal proceedings, etc., and estimate the amounts of expenditure and the Community contribution affected. If the Audit Authority does not consider that the limitations have an impact on the final expenditure declared, this should be stated.)

4. Errors and irregularities

[The error rates and cases of irregularity found in the audit work are not such as to preclude an unqualified opinion given the satisfactory way they have been dealt with by the NAO and the trend in the level of their occurrence over time.]

Or

[The rate of errors and irregularities found in the audit work and the way, they have been dealt with by the NAO, are such as to preclude an unqualified opinion. A list of these cases is provided in the final audit activity report together with an indication of their possible systemic character and the scale of the problem.]

⁵ optional for component 5

⁶ option to be selected

5. Auditors' opinion on the final statement of expenditure

[Option 1 - Unqualified opinion

(If there have been no limitations on the scope of the examination, and the error rates and cases of irregularity and the way they have been dealt with by the NAO do not preclude an unqualified opinion)

[Based on the examination referred to above covering the audit work carried out in accordance with Article 29(2)(b) IPA IR [and the additional work I have performed], it is my opinion that the accounts submitted to the Commission for the operations under the IPA component [1 to 5] for the period from (date) to (date) (in particular, the statement of expenditure) are **presented fairly, in all material respects** <, including those pertaining to the legality and regularity of the underlying transactions>⁷ [and the internal control procedures have operated satisfactorily]³.]

Or

[Based on the examination referred to above covering the audit work carried out in accordance with Article 29(2)(b) IPA IR [and the additional work I have performed], it is my opinion that the final statement of expenditure **presents fairly, in all material respects** - <including those pertaining to the legality and regularity of the underlying transactions>⁷ - the expenditure paid under the operational programme with reference:... of the IPA component [1 to 5] for the period from (date) to (date), and that the application for payment of the final balance of the Community contribution to this programme is valid.]

My audits were conducted between DD/MM/20YY and DD/MM/20YY.

(Place and date of issue

[Option 2 - Qualified opinion

(If there have been limitations on the scope of the examination and/or the error rates and cases of irregularity and the way they have been dealt with by the NAO calls for a qualified opinion but do not justify an unfavourable opinion for all the expenditure concerned)

[Based on the examination referred to above covering the audit work carried out in accordance with Article 29(2)(b) IPA IR [and the additional work I have performed], it is my opinion that the accounts submitted to the Commission for the operations under the IPA component [1 to 5] for the period from (date) to (date) are presented fairly in all material respects - <including those pertaining to the legality and regularity of the underlying transactions>⁷ [and the internal control procedures have operated satisfactorily]³ - **except** in the following respects:

- (a) ...
- (b) ...
- (c) ..., etc.

(state the qualifications, in particular the bodies concerned, and explain, e.g. whether they are of a recurring / systemic nature or one-off)

⁷ to be included optionally for components where applicable (see foot-note 6 above).

I estimate the impact of the qualification(s) to be [EUR] [%]... of the total expenditure declared, [corresponding to [EUR] [%] of the public contribution]. The Community contribution affected is thus].

Or

[Based on the examination referred to above covering the audit work carried out in accordance with Article 29(2)(b) IPA IR [and the additional work I have performed], it is my opinion that the final statement of expenditure presents fairly, in all material respects - <including those pertaining to the legality and regularity of the underlying transactions>⁷ the expenditure paid under the operational programme with reference:... of the IPA component [1 to 5] for the period from (date) to (date), and that the application for payment of the final balance of the Community contribution to this programme is valid **except** with regard to the matters referred to at point 3 above and/or to the observations at point 4 regarding the error rates and cases of irregularity and the way they have been dealt with by the NAO.

I estimate the impact of the qualification(s) to be [EUR] [%]... of the total expenditure declared, [corresponding to [EUR] [%] of the public contribution]. The Community contribution affected is thus].

My audits were conducted between DD/MM/20YY and DD/MM/20YY.

(Place and date of issue

[Option 3 - Adverse opinion

(If the nature and extent of the errors and of the cases of irregularities and the way they have been dealt with by the NAO are so pervasive that a qualification is deemed inadequate to disclose the misleading nature of the final statement of expenditure as a whole)

[Based on the examination referred to above covering the audit work carried out in accordance with Article 29(2)(b) IPA IR [and the additional work I have performed], and in particular in view of the nature and extent of the errors and of cases of irregularities and the fact that they have not been dealt with satisfactorily by the NAO as disclosed under point 4, it is my opinion that that the accounts submitted to the Commission for the operations under the IPA component [1 to 5] for the period from (date) to (date) are **not** presented fairly, in all material respects [and the internal control procedures have not operated satisfactorily]³.]

OR

[Based on the examination referred to above covering the audit work carried out in accordance with Article 29(2)(b) IPA IR [and the additional work I have performed], it is my opinion that the final statement of expenditure does **not** present fairly, in all material respects - <including those pertaining to the legality and regularity of the underlying transactions>⁷ the expenditure paid under the operational programme with reference:... of the IPA component [1 to 5] for the period from (date) to (date), and that the application for payment of the final balance of the Community contribution to this programme is **not** valid.]

My audits were conducted between DD/MM/20YY and DD/MM/20YY.

(Place and date of issue

[Option 4 - Disclaimer of opinion

(If there have been major limitations on the scope of the examination such that no conclusion can be reached on the reliability of the final statement of expenditure without considerable further work)

[Based on the examination referred to above covering the audit work carried out in accordance with Article 29(2)(b) IPA IR [and the additional work I have performed], and in particular in view of the matters referred to at point 3, I am **unable to express an opinion.**

EUROPEAN COMMISSION

Brussels,
C(2010) XXX final

COMMISSION DECISION

of 28 July 2010

**adopting a National programme for Montenegro under the IPA Transition Assistance
and Institution Building Component for the year 2010,**

COMMISSION DECISION

of 28 July 2010

adopting a National programme for Montenegro under the IPA Transition Assistance and Institution Building Component for the year 2010,

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1085/2006 of 17 July 2006 establishing an Instrument for Pre-Accession Assistance (IPA)¹, and in particular Article 14(2)(a) thereof,

Whereas:

- (1) Regulation (EC) No 1085/2006 lays down the objectives and main principles for pre-accession assistance to candidate and potential candidate countries.
- (2) In accordance with Article 7 of Regulation (EC) No 1085/2006, the assistance should be provided through multi-annual or annual programmes, which can be established by country and by component, or, as appropriate, by group of countries or by theme. These programmes should be drawn up in accordance with the general policy framework referred to in Article 4 of Regulation (EC) No 1085/2006 and the relevant multi-annual indicative planning document referred to in Article 6 of that Regulation.
- (3) The Council established for all candidate and potential candidate countries an Accession Partnership or a European Partnership. The Commission has adopted on 16 June 2009 a multi-annual indicative planning document 2009-2011 for Montenegro which presents indicative allocations for the main priorities for pre-accession assistance to the country concerned².
- (4) Therefore, and having regard to the project proposals submitted by the countries concerned, the National programme for Montenegro under the IPA Transition Assistance and Institution Building Component for 2010 aims at providing assistance under the axis mentioned here below with main focus on the following:
 - (1) axis 1 "political criteria": fight against corruption through developing an integrity framework in the public administration, and support to the police directorate; in addition to supporting local self-government and gender equality;
 - (2) axis 2 "economic criteria": infrastructure, in order to mitigate the impacts of the financial crisis and provide employment, through projects on railways rehabilitation, waste water treatment; support to the social sector, through social inclusion activities in education, social welfare reform and child care; the programme also sustains the

environment through an awareness campaign as well as through support to the forestry sector; and provides support to information society;

(3) axis 3 "assuming obligations of membership": implementation of *acquis* related activities in the areas of statistics, phytosanitary, construction norms, blood transfusion, market surveillance, as well as tax administration.

The last axis is targeted to smaller support activities, due to the small size of the country and its administration, and taking into consideration its absorption capacity; they include allowing participation in Community programmes.

- (5) This Decision meets the requirements of Article 90 of Commission Regulation (EC, Euratom) No 2342/2002 of 23 December 2002 laying down detailed rules for the implementation of Council Regulation No 1605/2002³ (hereafter: "Implementing Rules") and constitutes thus a financing decision within the meaning of Article 75 of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities⁴ (hereafter: "Financial Regulation").
- (6) It is appropriate to implement one project of this program in joint management with the European Investment Bank, in view of its foreseen activities in the area and its main position in the sector, in accordance with Art. 53d Financial Regulation.
- (7) The measures provided for by this Decision are in accordance with the opinion of the IPA Committee,
